

# **SOCIAL STUDIES MULTIPLE CHOICE QUESTIONS**

## **SOCIAL STUDIES COORDINATOR, WALTER MORRIS**

**STEP 1:** Read the question carefully until you understand it the best that you can.

**STEP 2:** Read all four answer choices and place them in one of these Categories;

**CONFUSING**  
**CRAZY**  
**CLOSE**  
**CORRECT**

**STEP 3:** Look for answer statements that do not relate to the question.  
(Reread the question and remember that sometimes an answer is true, but, it does not relate to the question.)

**STEP 4:** Look for clue words in the answer choices.

Answers that use words such as

all  
everyone  
only  
completely

are usually wrong because they are too broad or extreme.
